EXPERIENCE

Frontend Developer - PHP / Javascript
GRUPO JUINSA | Alicante | 07/2022 - 07/2024 | remote

- Developed a real-time dashboard using **React and Javascript** to monitor deployments in Staging and Production environments, integrating the **Bitbucket API** to fetch and display status.
- **Integrated Conset Managemenet Service** with Google Tag Manager services to track cookie consents in the project.
- Implemented new themes in two of the group's stores, reflecting the company's new visual identity.
- Helped **design new features**, defining projects with a **UX/UI** focus and **responsive** design.
- Developed, maintained, and modified custom modules. And adapted functionalities in proprietary Magento modules.
- Migrated custom modules to **Composer**, improving version management in **Git**.
- Led the support panel, debugging and bug fixing both **Frontend** and Backend tickets.
- Optimized or reduce **SQL** queries, improving the general **performance and quality of the code**.
- Delivered demo presentations, to showcase the new features to the interested parts.

Frontend Developer - PHP / Javascript
Modern Talking | Alicante | 01/2022 - 06/2022 | on-site

- Developed custom websites from scatch for end-clients, implementing designs provided in Figma by the Design Team.
- Designed wireframes based on client needs, proposing functional and modern alternatives to deliver to the UI team

Frontend Developer - PHP / Javascript
Vancondieresis | Alicante | 09/2021 - 12/2021 | hybrid

- Developed websites using visual builders, customizing base templates.
